#### PERFORMANCE SNAPSHOT

Sustaining performance in challenging times.

At Green Delta Insurance, we reported a satisfactory year 2021, navigating our business through challenging periods, including the second wave of the coronavirus, regulatory changes that necessitated alignments, high competitive pressures and general economic sluggishness. Our performance should be appraised in this light. During the year we also focused on building out our foundations, especially in digital insurance, efforts that should yield results in the current and forthcoming years.
